

Impact In The Cycle

Life is like a food chain

Don't complain

It's not about food

It's what we do

If someone buys a book from a store,
The workers make money and they too can buy more
You see it's like a cycle

Should I tell you another example

Ok I will

If someone pays their bill

A company will be fulfilled

Therefore everyone makes a difference
So they should all maintain their vigilance
Some are doctors who help their patients
They are never complacent

Whoever you are

You are an all-star

We all make changes

In different ranges

So believe in yourself

We all matter to this world

No matter if we are heard

Let's think the best

Do not be stressed

Let's change this world and be united
That will make us all enlightened
