

If the Earth Could Talk

Hi, I am Earth

I need to be saved,

As you can see,

I am not as clean as I used to be,

There is too much pollution,

Animals are dying,

People can't breathe.

There is too much waste,

It costs a lot of space,

There is trash everywhere,

From roads

To truckloads!

I have a fever.

I am getting hotter,

And hotter,

I will soon be bad,

And you will be sad!

The remedy is...

Plant more trees,
Plant more plants,
This is good nutrition for me!

Take less showers,
Turn off the lights,
Take less flights.

I am very kind to you,
So, will you please love me too?
You must get this right,
To save my might.
